

# Improving Access to Healthcare for ALL!

## ABOUT US

Founded in 1998, Johnson Health Center (JHC) is a non-profit, independent, federally qualified health center serving the City of Lynchburg and the counties of Amherst, Appomattox, Bedford and Campbell. With its **mission to provide affordable and comprehensive healthcare with quality services and strong community partnerships**, JHC is governed by a board of directors composed of at least 51% of its patient population. Community health centers were created more than 50 years ago in order to increase access to healthcare in medically underserved areas. All insurances are accepted and reduced fees are offered to those who qualify financially.

## JOHNSON HEALTH CENTER SERVICES

Johnson Health Center is proud to offer comprehensive healthcare services to anyone seeking care in the community. Johnson Health Center integrates access to pharmacy, behavioral health, and oral health services in areas where economic, geographic, or cultural barriers limit access to affordable healthcare. By emphasizing coordinated care management of patients with multiple healthcare needs and the use of key quality improvement practices, JHC works to reduce health disparities. **Since 2017, Johnson Health Center has increased patient access by 40.2%. In 2022 alone, JHC provided services to over 27,000 individual patients with nearly 100,000 visits.**
